Your achievements are a testament to your dedication and talent. We eagerly anticipate the remarkable successes that lie ahead for you.

ACADEMIC TRANSCRIPT

To whom it may concern,

This is to certify that

successfully completed the **iX Summer Data Science course and internship**. They acquired the following skills:

- Learn how to use Python or R.
- Demonstrate and explain concepts relating to the field of Data Science, its uses and limitations.
- Critically examine ethical issues and debates in the Data Science field, and make ethically-informed judgements on these issues.
- Manage the Data Science pipeline, from initial data wrangling to modeling, productionisation and deep learning.
- Practice data collection (web-scraping), cleaning, visualization, collaboration and version control (using Git).
- Develop insights from the analysis of the data, and create practical takeaways for organizational decision-makers.
- Understand and navigate cultural diversity in the workplace.
- Use teamwork skills and collaboration with others in diverse group settings.
- Use different problem-solving methodologies, implementing hypothesis-driven analysis and critical thinking skills.

The total class contact time is 36 hours. Total internship time is approximately 116 hours (11 days at 8 hours a day, 7 days at 4 hours a day).

Please contact iXperience on academictranscripts@ixperience.co if you have any questions.
